

## WORKSHEET: Establishing a Positive Learning Climate

Write a brief description of the key aspects of a teaching encounter from your own experience in which the learning climate was not effective in setting the stage for learning.

Which key components may have improved the effectiveness of the learning climate in your example?  
[check all that apply]

- 1. Stimulation
- 2. Learner Involvement
- 3. Respect and Comfort
- 4. Admission of Limitations

What alternative approaches/teaching behaviors might you use to increase your effectiveness in establishing a positive learning climate in this type of encounter?
